

## Ejercicios resueltos &gt; Short Compositions

## Which is your favourite pet?

## Planificación

- Empieza por responder a la pregunta: ¿cuál es tu mascota favorita?
- Organiza la descripción de manera que todos los aspectos de una misma idea aparezcan juntos en un mismo párrafo.
- El presente simple es el tiempo verbal que suele utilizarse para describir algo.
- Piensa en adjetivos que puedan describir a animales: hairy, soft, friendly, loyal...
- Utiliza expresiones para unir ideas: *In addition, moreover...*

Write about 100 to 150 words in the following topic: **Which is your favourite pet? Describe it and explain why you like it.**

My favourite pet is, without a doubt, the dog. I have had two dogs so far and I agree with the saying that "dogs are a man's best friend".

Dogs are common pets at homes, and people often keep them as a pet or to guard or hunt. There are many different breeds of dogs but my favourite is the labrador. Labradors are large dogs and their hair is short and dense, usually black or gold. Labradors are often used as assistance dogs because they are gentle, intelligent and good natured. In addition, they are used by the police because of their detection and working abilities.

But I like dogs because they are loyal and friendly and I think they make homes much livelier. You will never get bored if you have a dog around to play with!
