Write about 100 to 150 words in the following topic: **Should public places like hotels and restaurants have strict regulations that limit access to pet? Discuss.**

There are places where the access to pets is not limited and I think that it is very important that this should be strictly regulated. In the same way that there are smoking and non-smoking areas at restaurants, hotels and other public places, there should be regulations that limit the access to pets.

I believe this is especially urgent in places like supermarkets or restaurants where food is involved. As a customer, I do not like having a pet sitting on the table next to me while I am having lunch with friends or running along the supermarket corridors while I am doing the shopping. In my opinion, owners sometimes do not realize that their pets might bother other people and so regulations are needed in order for everybody to be at ease everywhere.
